# Staying in education and training after year 11

## Do I have to stay on at school?

All young people are required to stay in education or training until their 18th birthday. This is so that every young person gains the right knowledge and skills to move on to a successful career.

## Education and Training

The pathway you choose will be based on the following:

- What GCSE grades you achieve
- How you like to learn
- What you want to do in the future

Remember that if you do not get a Grade 4 in maths and/or English GCSE then you will need to continue studying until you get the equivalent of a Grade 4 in these subjects.

Please ask for information at your school, college or training provider.

## When making a decision about your next step here are some questions to ask yourself:

- What am I good at?
- How well do I expect to do in Year 11?
- What are my interests?
- What skills do I have?
- What do I like doing?

## What are my options?

You can choose from full-time education at school or college, an apprenticeship or Traineeship.

## When considering a particular qualification or programme to follow next year, ask yourself:

- What is the qualification (e.g. A Level, GCSE, BTEC, T Level)? Is it at the right level for me?
- What is the subject/course?
- Will it help me do the things I want to do in the future?
- What is the progression from this qualification (e.g. is there something similar available at the next level)?
- Is it something that I enjoy and I'm good at?
- What will the subject/course actually cover?
- Have I achieved the entry grades?

## How will I learn?

Will there be lots of practical sessions, hands-on work, essay's?

Will my learning be assessed through exams, portfolio or on the job?

Where will I learn?

In a classroom, in a lab, in the workplace?

At a school sixth form, at a sixth form college, at a further education college, with a work-based training provider?
