

Health and Social Care

Intent

- For pupils to achieve their best and be successful.
- To gain a knowledge of the growth and development of a human over life stages.
- To know the various health and social care sectors that exist which may provide future career opportunities.
- To have good numbers to progress to level 3 courses in Health and Social Care.

Implementation

- Delivery: Explore, develop and apply the curriculum to health and social care scenarios through discussion, peer assessment/observation, independent work, group work and role play.
- Assessment: Formative lesson by lesson and through questioning, as well as the marking of written work. Summative through exam questions and assignments.
- Skills developed: Written and verbal communication through presentations, reports and peer feedback.

Impact

- Pupils have a keen interest in health and social careers
- Some pupils do work experience in the health and social care sector
- BTEC gained. Individuals are supported to achieve and attain the best that they can.
- KS4 allows possible progress onto level 3 courses in health and social care.
